## A profile of Wokingham Borough

Wokingham Borough consists of 17 parishes and towns, each with their own distinctive character.

The borough offers an excellent quality of life, with great job opportunities, top class schools and an attractive local environment. These positive features of the borough not only make it a great place to live but also attract leading edge businesses and highly skilled workers.

### Facts and figures

**Area:** 17,892 hectares (44,211 acres)

**Population:** 177,500 (Office for National Statistics, 2021)

**Total electorate:** 132,855 (as of February 2023)

**Number of households:** 73,962 (as of February 2023)

### The local economy

The local economy is dominated by the high value IT and telecoms sectors. The Borough is home to major international companies, such as Oracle, Microsoft, Johnson and Johnson, Jacobs, Pepsico, and Hewlett Packard Enterprise. Much of the University of Reading also falls within the borough boundary, including Thames Valley Science Park which is contributing to the rapidly expanding film and TV sector with the development of 18 sound stages by Shinfield Studios. Businesses are attracted by the good quality environment, high achieving schools, a highly skilled workforce and excellent transport links to London, Heathrow, Gatwick and the motorway networks.

### Employment

In January 2023, the percentage of working age people in the Wokingham Borough claiming Jobseeker's Allowance and National Insurance credits - or receiving Universal Credit principally for the reason of being unemployed - was 1.6%, which is significantly lower than levels for the South East (2.8%) and Great Britain (3.6%). While this is marginally higher than very low pre-Covid levels (1.1%) this is indicative of strong recovery and the structural resilience of the local economy.

### Skills & Education

The borough has a very well-qualified and highly skilled resident workforce, with 57.0% of the population being qualified to at least NVQ Level 4, which is well above the regional and national equivalents. There is also a high proportion working in managerial and professional roles (69.7%). Wokingham Borough's well-qualified and educated workforce supports the particularly strong local knowledge economy sector. The area also enjoys similar advantages at NVQ Levels 3, 2 and 1. The borough's schools are high achieving, with results regularly placing the local authority among the top performing in the country.

### Housing

About 10,000 new homes are being built at strategic development sites bringing with them nearly £1 billion investment in infrastructure and facilities, such as schools, roads, shops, parks and community centres.

The borough offers an excellent quality of life, with great job opportunities, excelling schools and an attractive local environment.
