Subject: **Town Boundary and Funding**

Dear Sirs,

I object to the proposal not to include the new home being built to the south of the town within the town boundary, and hence not include extra funding for the Town Council.

Clearly the occupiers of the new homes will use the town schools, parks, doctors, shops, sports clubs....the list goes on.

More importantly extra funding for the town will allow the Town council to avoid increasing retail rates, and hopefully allow additional funds for regenerating other areas within the town, thereby enticing more retail outlets to Town. This will increase footfall in the town and "keep it alive", and avoid the area becoming a "dormitory" zone.

Additionally the l new houses clearly fall within the natural boundary of the town as illustrated by drawing a circle centred on the exist town centre and encompassing the existing outlying districts, please see below.
